Madison Digital Service

An information Technology Company

LINUX Systems | Software | Artificial Intelligence | Security | Product Design

Core Competency

Software, Artificial Intelligence and Large Language Models
- AI Agent Development, Integration and Platform
- LLM Fine Tuning | Inference | Training | Minimal Viable Product
- Large Scale AI Data Platform
- Software Design
- 2D & 3D Custom Product Design | Prototype | Manufacturing

LINUX Platforms and System Engineering
- Workstations & Laptops | Network Storage | Security | Networking

Company Data

Madison Digital Service
123 East Ford St. Suite A
Ridgeland, MS 39157

We are a veteran owned technology company since 2021 delivering the latest software design, AI solutions and LINUX-based platforms to solve our customers' unique challenges.

NAICS: 541512 | 541511 | 541519 | 541490 | 541340

Industry Experience

Software Development and Deployment
- Python | SQL | REST API | Vector DB | Automation
- Grok | NOMIC | LangChain | Oracle | J2EE | RedHat | ComfyUI

Large System Engineering Deployment
- HP | Oracle | IBM | VMWare | Kubernetes | KVM

System Modernization, Integration, and Migration
- Application Server Upgrades | Cloud Transition | Security
- OCI | WebLogic | AWS | IBM SaaS | NOMIC.ai | Oracle EM

Project Management
- Database Migration | System Deployment | Integrate REST API

Our 25-year industry experience spans banking, media, insurance, retail, utilities as well as governments in the U.S.
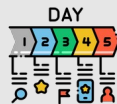

Differentiator

Experienced performer in large and smaller system deployments with critical integration within various government agencies.

Consistently deliver projects in or under budget.

Adoption of the latest AI capabilities, frameworks, and industry innovations into working solutions.

Use design patterns to fast-track solutions for software and system design.

Government Project History

ISC2 NORAD 2006
System Modernization

Stennis Space Center
Oracle File system 2018

Research Ship
Data Storage 2007

LINUX-Based System
Modernization 2021

Multi-Security Workstation
Deployment 2005

Application and Data
Modernization 2017
